## **Continued Prosecution Application**

The request filed on May 30, 2002 for a Continued Prosecution Application (CPA) under 37 CFR 1.53(d) based on parent Application No. 09/479,467 is acceptable and a CPA has been established. An action on the CPA follows.

Applicant's preliminary amendment has been entered. Claims 1, 5, 9-11, 15-17, 21, 25, 27-32, 42, 49, 74-77, 82-82, 88, and 89 have been cancelled. Claims 22 and 26 have been amended. New claims 93-95, as renumbered by Rule 1.126, have been added. Claims 22, 26, and 93-95 are pending and are under current consideration.

The Examiner had previously communicated in the Final Office action of 7/31/02 and the Advisory Action of 2/1/02 that claims 22 and 26 were objected to would be allowable if rewritten in independent form. However, the amendments to claims 22 and 26 have raised new grounds of rejection as set forth below in addition to the rejections of new claims 93-95.

### Drawings

New corrected drawings are required in this application because of the objections by the draftsman as indicated in the PTO 948 attached to Paper No: 7, mailed on 8/16/00. Applicant is advised to employ the services of a competent patent draftsperson outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid

abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

## Claim Rejections - 35 USC § 112, 2<sup>nd</sup> paragraph

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 22, 26, and 93-95 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 22 and 26 are indefinite because they depend from cancelled claims, 90 and 91 respectively. Claims 90 and 91 have been cancelled in Applicant's amendment received on 5/11/01. It would appear that Applicants intend for claims 22 and 26 to depend from renumbered claims 93 and 94 respectively.

Claims 93-95 are indefinite as follows: step (c) of the claims recites a sequence of nucleotides that encodes a *Caenorhabditis* LOV-1 gene. However, it is unclear how a sequence of nucleotides can encode a LOV-1 gene. Neither the prior art nor the instant specification has defined how a sequence of nucleotides can encode a LOV-1 gene. The specification and prior art have recognized that a nucleotide sequence encodes a protein. Appropriate correction is required.

Claims 93-95 are indefinite as follows: step (c) recites sequence of nucleotides that encodes a *Caenorhabditis* LOV-1 gene and that hybridizes along its full length to the full length of at least one of the exons set forth in SEQ ID NO: 3. However, it is

Application/Control Number: 09/479,467

Art Unit: 1632

unclear how a sequence encoding a LOV-1 gene, which is understood to refer to the full length gene, can hybridize along its full length to at least one of the exons set forth in SEQ ID NO: 3. Furthermore, it is unclear how a full length gene, presumably including introns as would be expected to be part of the full length gene, can hybridize along its full length to at least one of the exons of SEQ ID NO: 3. Since a LOV-1 gene is longer than at least one exon of SEQ ID NO: 3 (as is consistent with the discussion of the LOV-1 gene provided by the specification), it is unclear how a LOV-1 gene can hybridize along its full length to at least one exon of SEQ ID NO: 3. Appropriate correction is required.

# Allowable Subject Matter

Appropriate correction of the rejections under 35 U.S.C. 112, 2<sup>nd</sup> paragraph rejection may be sufficient to place the instant application in condition for allowance.

#### Conclusion

No claim is allowed. Claims 22, 26, and 93-95 appear to be free of the prior art of record.
